

HOW TO APPLY

Carefully review the application checklist to learn what is required to complete your application.

What type of applicant are you?

Regular Applicant (with GRE)	1
Non-degree/ Conditional Applicant (without GRE)	2
Certificate Programs	2

Apply Now using : https://myiit.force.com/OnlineApp/TX_CommunitiesSelfReg

Regular Applicant (with GRE) during the application process you should upload soft copies of:

1. Mark cards – Soft Copies of your Semester wise Mark Sheets (first - final Semester) & Degree Certificate, scanned in ONE single PDF file and should be scanned ONLY from Originals. - Note Consolidated Mark cards *will not* be accepted except from Indian Institute of Technology.

2. SOP : Your professional statement should be written in essay format and should include discussion of your reasons for pursuing graduate study, your academic background, your research interests (if applicable), relevant professional experience or related accomplishments to date, and your career goals. A typical statement is between 500-2000 words in length.

3. Letters of recommendation LORs – Letters of recommendation should be submitted from individuals who are able to assess your academic and/or career achievements and potential. Recommenders may include professors or employers, but may not include family members or personal friends. Please ask your recommenders ahead of time if they are willing to write you a letter of recommendation.

Letters of recommendation must be submitted through the online Application Portal; you will input the recommender's name and email address, and they will receive an electronic invitation to then submit a letter as a PDF. You will not see this document as they will upload it themselves and it will go immediately into your application.

Master's degree applicants must submit one letter; Ph.D. applicants must submit two. Please do not submit more letters than are required for your application. Additional letters will not be reviewed by the admission committee.

4. GRE Score Report – We require official [Graduate Record Examination \(GRE\)](#) scores sent directly to IIT by the [Educational Testing Service \(ETS\)](#) . Please ask ETS to send your scores to institution code 1318; no department code is required. [Read complete GRE score requirements.](#)

NOTE: Any difference between an applicant's name in the score report and in the application to IIT will delay or prevent IIT from properly obtaining scores. Be sure that the name you give the testing service matches exactly the name you provided on your application to IIT.

You need NOT upload your GRE score during the application process. TOFEL is NOT required

Non-degree/ Conditional Applicant (without GRE) during the application process you should upload soft copies of:
