**ILLINOIS INSTITUTE
OF TECHNOLOGY**

AT CHICAGO

WHAT IS
ILLINOIS TECH?

Founded in 1890, Illinois Institute of Technology, Chicago (Illinois Tech) is a Ph.D. granting private, technology-focused, research university offering undergraduate, graduate & Ph.D. degrees.

Since 1997, this university is offering a few master's & certificate programs in India as offered in campus at Chicago, online.

The objective is to help
- working professionals keep pace with changing technology
- students who can not go abroad for their higher education.

MASTER'S PROGRAM

Currently masters & certificate programs are offered in Computer Science, Electrical, Computer Engineering, Manufacturing Engineering and Information Technology Management.

CERTIFICATE PROGRAMS

(3- 5 Courses) forming a subset of masters can be pursued. Certificate programs will not require GRE and transfer of credits to masters is possible with valid GRE scores.

TEACHING METHODOLOGY

Campus and online students use the same course space in Blackboard 9.1, our learning management system. Noteworthy – there is no discrimination between campus and online students.

ELIGIBILITY

The eligibility for any of programs in Illinois Tech is first class in 4 Year university program like BE/BTech/MCA/MSc i.e 4 years in UG in relevant field of engineering. GRE is required. One can commence masters without GRE and continue the second semester with valid GRE score. TOFEL/IELTS is waived.

DURATION

To complete masters one needs to do 10 courses (subjects), in a maximum period of 6 Years.

FEE

Tution fee is almost a third of that levied on campus.

KEY FEATURES

- Online program is ideal for working professionals and can be done without leaving the job.

- Study anywhere, anytime and any number of times.

- Same degree as in campus, is awarded at a subsidized tuition fee.

- More than 35 companies sponsor their engineers for these programs.

- As an admitted student of Illinois Tech, a student undergoes the same academic rigor, does the same project and writes the same examination as a student on campus. This leads to the same degree with universal recognition which enables a student obtain a work permit under H1B American graduate quota.

STUDENTS FROM THESE COMPANIES DID OUR PROGRAMS

Motorola, Honeywell, Oracle, Godrej, Sasken, Cisco, Juniper Networks, Philips, Qualcomm, IBM, Intel, Verisign, Ebay/Paypal, Group-on.
